WHTA IS A....

REPOSITORY?

CREATE A REPOSITORY

CHOOSE THE
“NEW
REPOSITORY”

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository](#).

Required fields are marked with an asterisk (*).

Owner * Repository name *

MissPamelaPardo / didactic-guide

Great repository names are short and memorable. Need inspiration? How about [didactic-guide](#)?

Description (optional)

Public Anyone on the internet can see this repository. You choose who can commit.
Private You choose who can see and commit to this repository.

Initialize this repository with:

Add a README file This is where you can write a long description for your project. [Learn more about READMEs](#).

Add .gitignore .gitignore template: None Choose which files not to track from a list of templates. [Learn more about ignoring files](#).

Choose a license License: None A license tells others what they can and can't do with your code. [Learn more about licenses](#).

You are creating a private repository in your personal account.
